

# Agenda Masterclasses by DISC

19 April 2023: Masterclass Smart City, by DISC-partner [WeCity](#)

Topic:

In the Netherlands the focus is on sustainable, livable and inclusive cities. Technology and data are enablers to achieve this. During this Masterclass we will provide you with knowledge about smart city initiatives in The Netherlands, challenges to scale up and approaches to join existing ecosystems. You will learn about healthy urban living, smart mobility and citizen science projects. In all these projects the involvement and participation of different stakeholders is key to success.
